

JACOMEX

Design and production

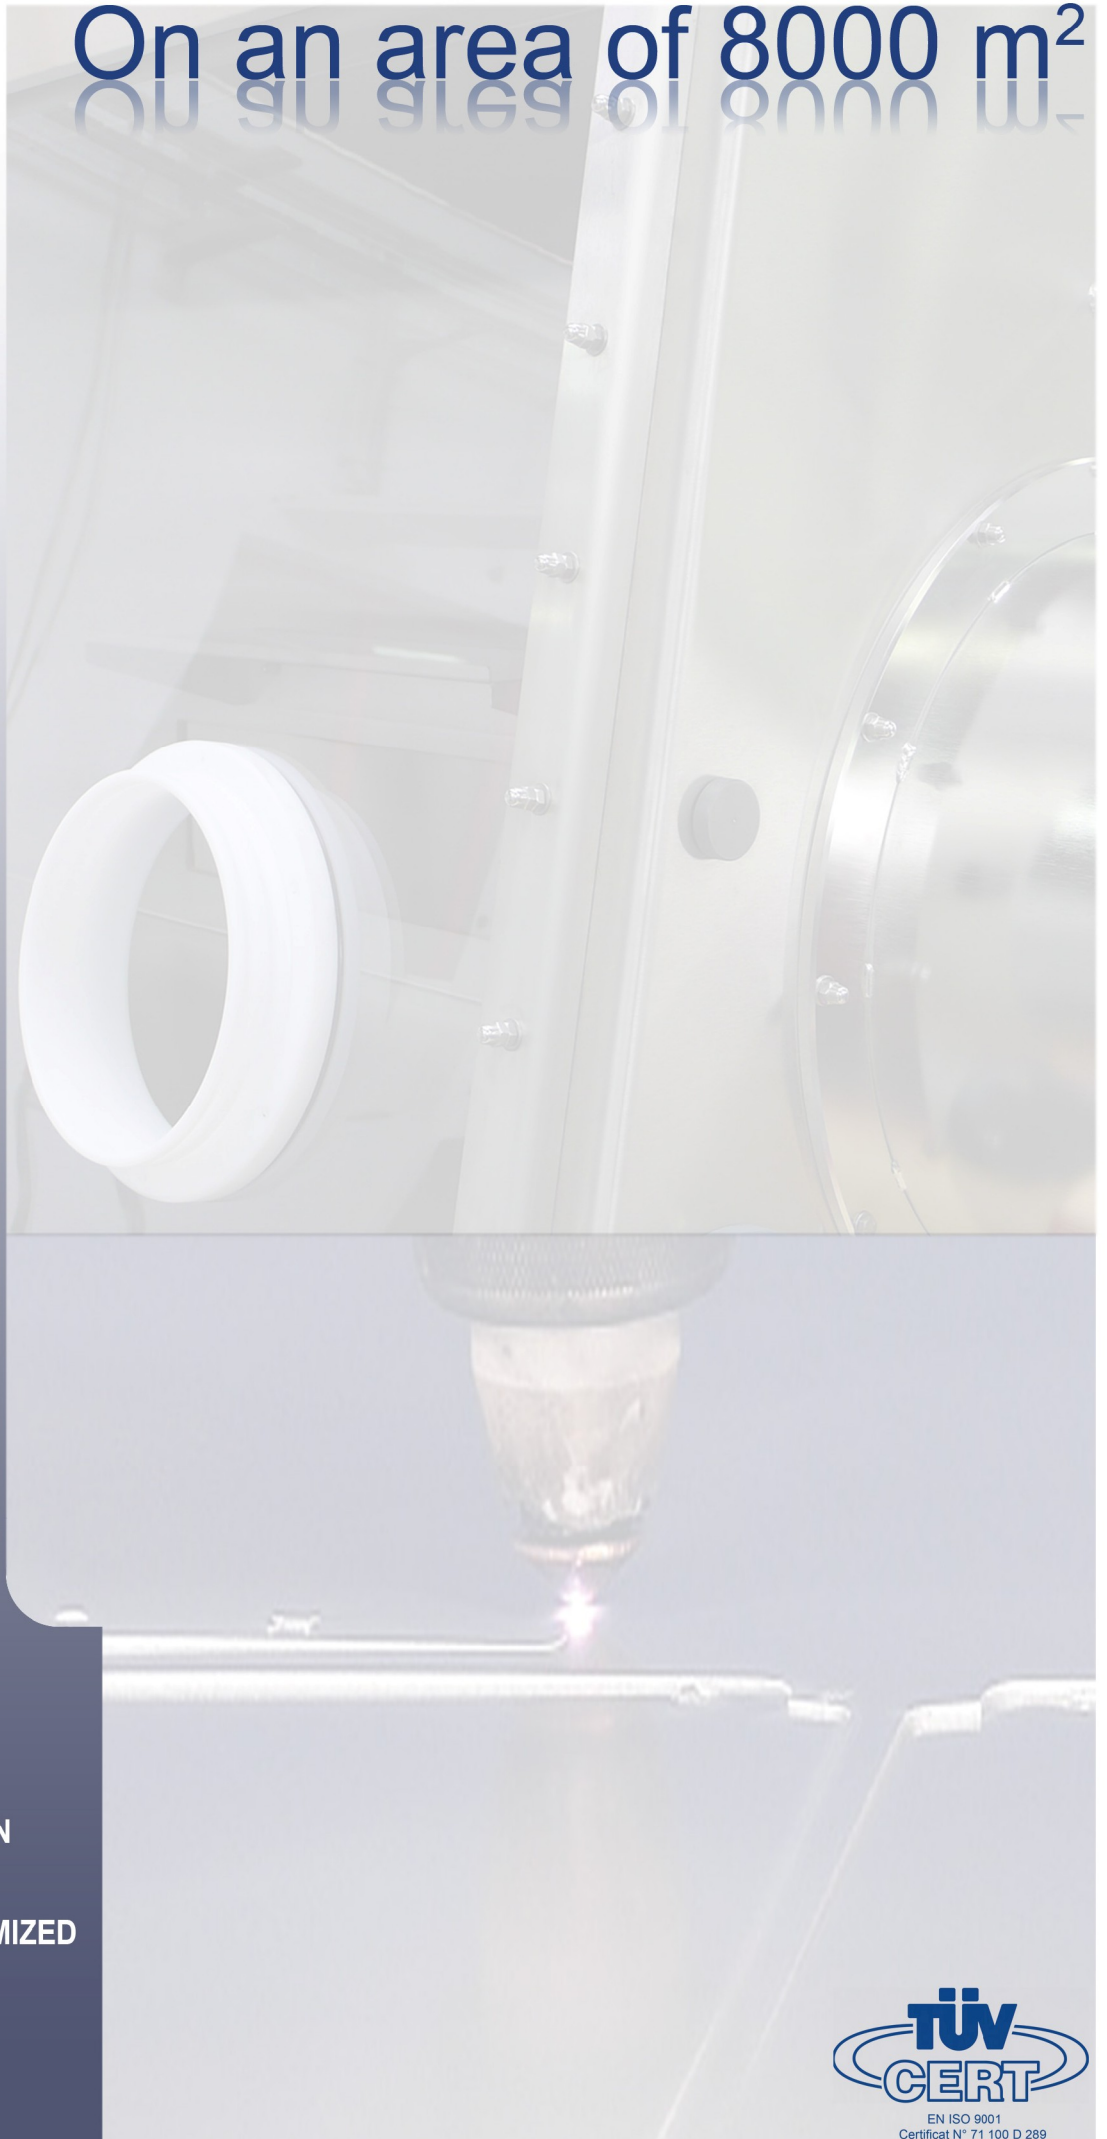

GLOVE BOXES

ISOLATORS

INERT GAS PURIFICATION
SYSTEMS

STANDARD AND CUSTOMIZED
PRODUCTS

On an area of 8000 m²

EN ISO 9001
Certificat N° 71 100 D 289

Our assets

Experience

More than 40 years experience in the design and the manufacturing of containment boxes

Total control of the project

Design (design office)
Realization (methods' office)
Manufacturing (efficient machines and highly qualified staff)
Marketing

French manufacturing

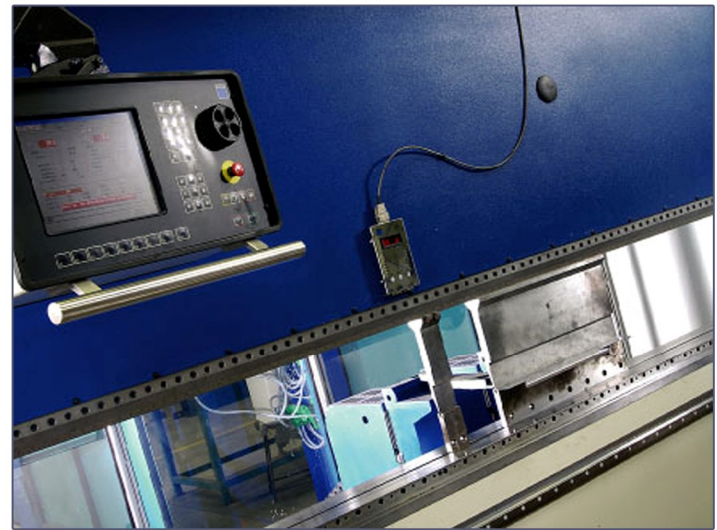

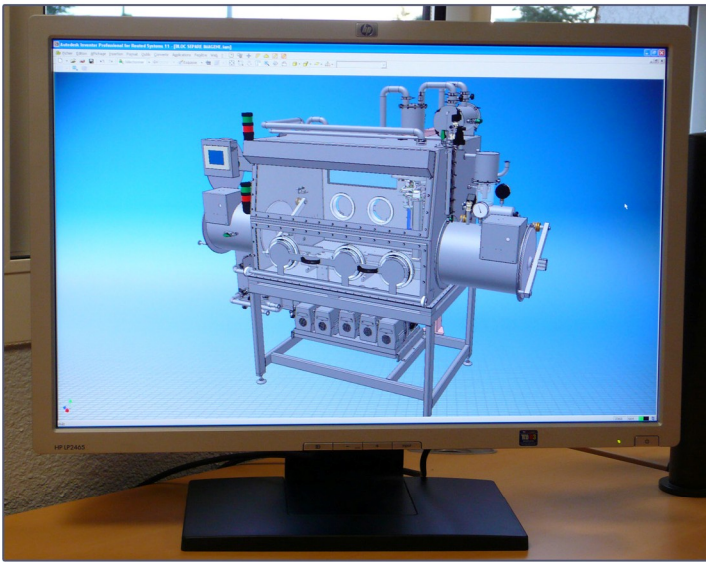

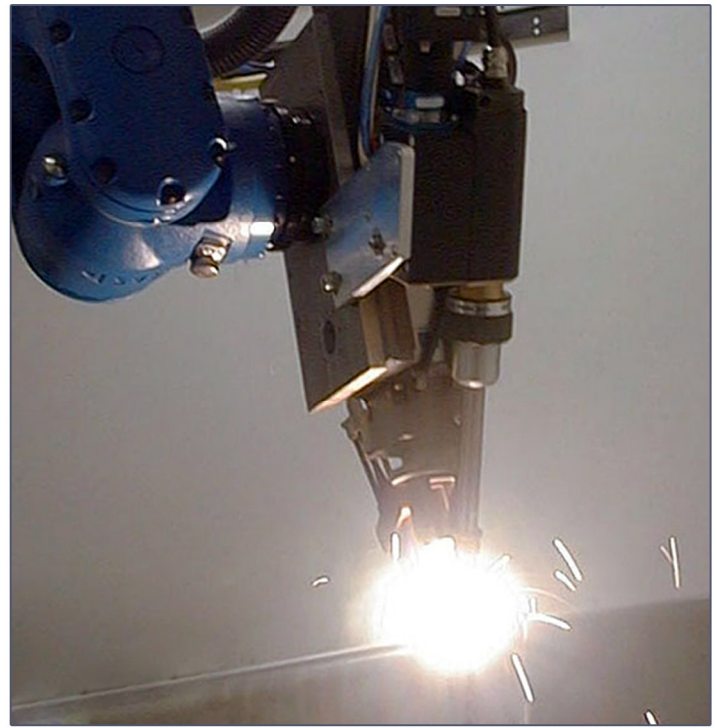

Standard and customized products according to customer's needs

Fields of speciality

Rigid isolators and glove boxes in stainless steel
Mecano-welded structures, electropolished with rounded corners

Quality control

EN ISO 9001 : 2000 certification (since 2002)

Our human and material means

Laboratory equipped with test and control apparatus

1 leak rate controller of glove boxes "Oxyfuit" (patent Jacomex/CEA)
Oxygen method according to ISO 10648-2 norm
1 mobile helium leak controller ASM 310
1 mobile helium leak controller ASM 120 H
1 helium leak controller ASM 142
1 mobile gaz leak controller tg 94
1 tightness test laboratory

Integrated design and methods' offices

2 licences autocad 2000®
2 licences Mechanical Desktop®
2 licences Inventor 3D®
1 licence TruTopsLaser®
1 licence TruTopsTube®
1 licence TruTopsBend®
1 licence TruTopsCell®

Boiler works of 3000 m²

1 yag welding robot TRUMPF®
1 laser cut machine CO₂ TRUMPF®
1 folding press CNC TRUMPF®
1 band saw CNC 2 axes
6 TIG argon welding machines steel- alu/ 250A
1 pulse welding machine MIG MAG / 500A
1 tight containment box for titanium welding

After sales service

Facility, startup, training, repairing, helpline

Research and Development service

2 automation programming and SIEMENS touch screen licences
